STEPHEN WEBSTER EMISSIONS REPORT 2021

COMPANY INFORMATION

Stephen Webster Limited is a private limited company, incorporated in the UK. Registered address is 24 Albemarle Street, London W1S 4HT

Reporting period Target

1 April 2021 - 31 March 2023

CHANGE IN EMISSIONS

We have prepared this report to benchmark our emissions using conversion factor methods split out by scopes 1, 2 and significant scope 3 emissions.

APPROACH

We have followed the Government's Guidance on how to measure and report greenhouse gas emissions.

<https://www.gov.uk/government/publications/greenhouse-gas-reporting-conversion-factors-2021>

For further conversion projections we have used Government Guidance, as below.

https://www.google.com/url?sa=t&rct=j&q=&esrc=s&source=web&cd=&ved=2ahUKEwjn4ob8jqnzAhXjA2MBHaayDVYQFnoECAkQAQ&url=https%3A%2F%2Fassets.publishing.service.gov.uk%2Fgovernment%2Fuploads%2Fsystem%2Fuploads%2Fattachment_data%2Ffile%2F793632%2Fdata-tables-1-19.xlsx&usq=AOvVaw3WPuCXNMRQgVFMv4a4v5PO

ORGANISATIONAL BOUNDARY

We have used the financial control approach.

OPERATIONAL SCOPES

We have measured our scope 1, 2 and significant scope 3 emissions. We have chosen not to include Upstream within our base year calculations as it has deemed to be outside of our entity's direct control however we continue to monitor our suppliers against best sustainable practices.

CARBON FOOTPRINT

	FY23 Tonnes of CO2e	FY22 Tonnes of CO2e	Base year FY20 Tonnes of CO2e
SCOPE 1			
N/A to Stephen Webster Limited	N/A	N/A	N/A
Total Scope 1			
SCOPE 2			
Purchased electricity	19.22	20.45	23.24
Total Scope 2	19.22	20.45	23.24
SCOPE 3			
Business travel	47.24	48.20	50.74
Employee Commuting & Outsourcing	4.87	5.13	5.70
Waste disposal	0.10	0.11	0.12
Water	0.04	0.04	0.04
Downstream	15.92	12.36	9.50
Total Scope 3	68.17	65.84	66.10
TOTAL GROSS EMISSIONS	87.39	86.29	89.34
CARBON OFFSETS	-	-	-
Green tariff	19.22	20.45	18.75
TOTAL ANNUAL NET EMISSIONS	68.17	65.84	70.59

BASE YEAR

Our base year is FY20 which we set using a fixed base year approach.

STEPHEN WEBSTER

LONDON

TARGETS

Our target is to reduce our scope 2 and significant scope 3 emissions by -3% by FY23. Under scope 2, we plan to reduce our emissions by -17% by FY23, with the aim to reduce by -46% by FY30. Our progress towards reaching this target is good and we expect to meet these targets.

The Stephen Webster Green Team are responsible for monitoring the achievement of these targets.

Under Downstream, the projection includes forecast business growth and the introduction of The Green Company Ltd and 'green' DHL couriers for UK shipments. We are actively investigating electric couriers/ carbon neutral shipments for our international shipments to continue to reduce our impact. We have made significant steps forward during FY22, but still seeking a supplier for our international shipments.

Under business travel, we have chosen not to report on taxi travel and focus on our significant impacts, flights and rail.

INTENSITY MEASUREMENT

We have chosen 'Tonnes of CO₂e per tonne of output' as this is the common business metric for our industry sector.

EXTERNAL ASSURANCE STATEMENT

We are not seeking an external assurance statement for our emissions report for FY22 but will review this annually.

CARBON OFFSETS

We have offset a portion of our purchased electricity in Scope 2 due to it being renewable energy. From FY21, all our electricity is sourced from renewable energy.

To further extend our commitment, during FY22 we will be purchasing certified removal and avoidance credits from Gold Standard, that supports the [Terraclear project](#) and the prevention of the equivalent CO₂e from entering our atmosphere, for our annual significant scope 3 emissions.

GREEN TARIFFS

We have not purchased any Green Tariffs, but this will be reviewed annually.
